

-- 2 The average and sum of the donations by postal code and City in a specific month. Define the city and month as variables to allow flexibility.

```
DECLARE @City VARCHAR(50) = 'York' -- Replace 'YourCity' with the desired city name
DECLARE @Month INT = 7 -- Replace with the desired month
```

```
SELECT
    Postal_Code,
    City,
    AVG(Donation_Amount) AS Average_Donation,
    SUM(Donation_Amount) AS Total_Donation
FROM Donation
INNER JOIN HouseAddress ON Donation.Address_ID = HouseAddress.Address_ID
WHERE City = @City AND MONTH(Donation_Date) = @Month
GROUP BY Postal_Code, City;
```
